

SKILLS

- Python & SQL
- Agentic AI & AI Agents
- LLMs & Prompt Engineering
- Retrieval-Augmented Generation (RAG)
- Flask, TensorFlow, OpenCV
- Docker & Linux
- n8n, REST APIs, Git
- Zoho CRM & WhatsApp Business API
- Power BI, Tableau, Excel

BIRUNDHA I

Agentic AI & Python Developer

Phone: +971 55 649 4897 **Location:** Dubai, UAE
Email: birundhabhuvana1312@gmail.com

PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with hands-on experience building conversational AI agents, LLM-powered applications, and business automation workflows. Experienced with Hermes Agent, Python, n8n, RAG, prompt engineering, WhatsApp Business API, and Zoho CRM integrations. Passionate about developing practical AI solutions that automate real-world business processes.

WORK EXPERIENCE

Agentic AI Trainee | Sree Karuviyiyal *Jun 2026 – Oct 2026*

- Developed enterprise AI agents using the Hermes Agent framework.
- Built AI-powered lead qualification and automated email response workflows.
- Integrated WhatsApp Business API and Zoho CRM for business automation.
- Developed LLM-powered knowledge bases using prompt engineering and RAG.
- Deployed AI services using Docker, Linux, OpenRouter, and Ollama.

Software Intern | Surya Induction Engineering *Oct 2025 – May 2026*

- Developed Python automation tools for industrial workflows.
- Built backend modules for IoT monitoring dashboards.
- Implemented industrial data processing and alert mechanisms.

AI Trainee | Aristoverse Deep Tech *Jun 2025 – Aug 2025*

- Integrated machine learning models into Flask web applications.
- Developed computer vision applications using TensorFlow and OpenCV.
- Tested and optimized AI models.

PROJECTS

Enterprise AI Agent Platform

- Built an enterprise AI assistant using the Hermes Agent framework.
- Automated CRM lead analysis and AI-generated sales email responses via WhatsApp Business API and Zoho CRM.
- Developed an LLM-powered knowledge base for product recommendations and customer support.

GeoAttendance Mobile Application

- Developed an Android attendance app integrated with Odoo ERP, with GPS geofencing for secure check-in and check-out.
- Integrated REST APIs for attendance, leave management, and employee records; built dashboards with leave summaries and history.

AI-Powered News Content Automation

- Automated RSS feeds into publish-ready articles using n8n and LLMs, with a Telegram approval workflow for content validation.

Sign Language Recognition Web Application

- Built a real-time sign language recognition system using TensorFlow, OpenCV, and Flask, with REST APIs and text-to-speech for accessibility.

EDUCATION

B.Tech, Artificial Intelligence and Data Science *2022 – 2026*
S.A. Engineering College, Anna University (Autonomous) | CGPA: 8.27
